# Orange Flesh Turlock

Grown in the Turlock region of California, these orange flesh honeydews are a prime pick known for their exceptionally sweet taste and rich, velvety texture. They also don a beautifully smooth and cream-toned outer rind. Their premium quality can be attributed to the region's meticulous farming practices, ideal climate and fertile soil.

# Picasso

Picasso melons have a firm, white flesh that's got notes of Asian pear & Charentais melon. You can tell when it's ripe because the splotches of color on its skin will lighten up. The name comes from the beautifully creamy rind streaked with shades of green emanating a painting.

# Santa Clause

Santa Clause melons have a thick, green stripe mottled rind that looks similar to a watermelon. Their pale flesh is juicy with a subtle honey flavor that's sweetest when fully ripe. It's super thick rind allows it to keep well until holiday season, where it gets its name.

# Snow Leopard\*

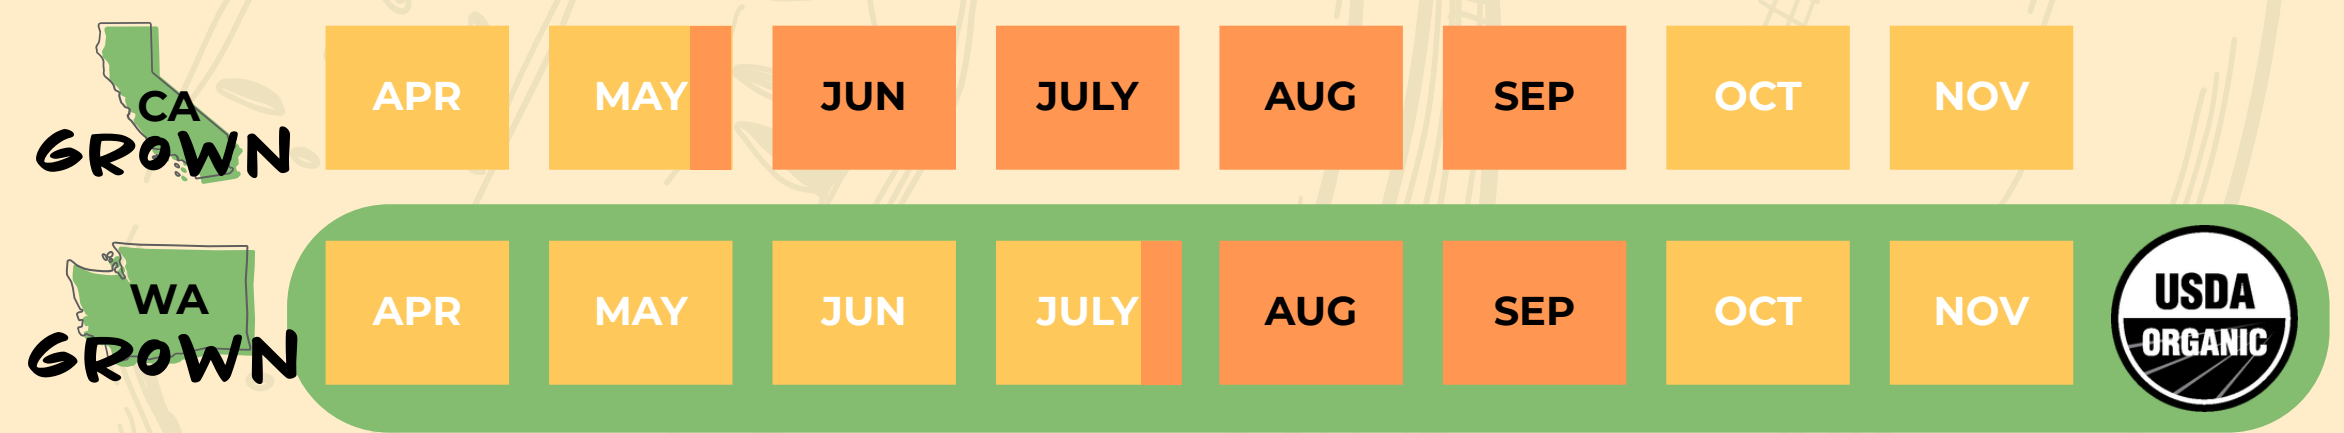

Snow Leopard honeydew melons have a cream-colored rind with elegant green streaks. They're small, personal-sized melons with a crisp white flesh that's mildly sweet and refreshing. **\*Organic only available**

# Tuscan Cantaloupe

Tuscan cantaloupes have a distinctive orange flesh and vibrant green-striped rind. Incredibly sweet and aromatic, they offer a rich, honey-like taste with a silky texture. They're a summertime favorite that make for a refreshing snack, smoothie mix, or salad.
